Forecast for Thursday 05 Aug 2021

Weather: Generally cloudy with showery outbreaks of rain throughout, these heavy at times. Rain most persistent near the west coast, with the best chance of any dry spells across eastern Lochaber late morning and early afternoon.

Chance of cloud free mountain/hill tops above 800m: 10%, rising to 70% for a few hours in the afternoon.

Visibility: Poor for much of the day in heavy rain and low cloud, bases around 600-700m, but improving for a few hours early afternoon with bases mostly above the summits.

Met Office Aberdeen Meteorologist's View
Strong summit winds with a risk of gales across higher summits in the afternoon.

Forecast for Friday 06 Aug 2021
Weather: Low cloud and patchy rain through the early hours across eastern ranges, drier with clear spells near the coast. Scattered heavy showers by day with a risk of thunder. The showers heaviest and most frequent in the east, less frequent with good sunny spells near the coast. Showers continuing into the night, but easing slightly.

Maximum wind: East 15 gusting 20 mph, but gusts of 30-35 mph possible near heavy showers.

Chance of cloud free mountain/hill tops above 800m: 20% in the east, 60% in the west.

Visibility: Poor in low cloud or passing heavy showers, but otherwise good. Cloud fairly extensive with bases 600m across eastern ranges in the east in the morning, becoming more broken in the afternoon. Only occasional patchy cloud in the west, mainly above 800m.

Temperature: **Glens:** Plus 14 Celsius rising to 20 Celsius
At 800m: Plus 10 or 11 Celsius.
Freezing level: Above the summits.
